

To the FCC:

I urgently request that you would not replace the regular FM station (K-Love or AirOne) with a LPFM.

To take away an already established station that clearly provides wholesome broadcasting without offensive DJ's or music to replace it with something that I may not want my family to be subjected to is unfair and completely arbitrary which removes my freedom to choose what I wish to listen to.

AirOne and K-Love provide morally uplifting music and positive messages that are acceptable for all ages to hear.

Please don't take our station away from us.
